

Remarks

Applicant asks that the above wording be inserted to reflect the Government Rights Claim in this application.

Also, regarding the article mentioned by the Examiner which is entitled "SRS Shows Investigation Tools" dated April 30, 1999, applicant will shortly file evidence supported by affidavits to show that the "helmet-mounted blue light" device mentioned in the article is not the same light arrangement as claimed in the above application. The present invention was developed later.

Respectfully submitted,

William D. Lee, Jr.
